

SiteSolutions

Energy & Infrastructure

An accurate search which provides details of a number of Energy and Infrastructure projects across the UK.

What's included

Front page overview

Clear next steps provided

Professional Indemnity
Cover of £10 million*

Key features

Main risks clearly summarised allowing lawyers to cut and paste key information to their clients.

Risk assessment

- We will only describe issues that are relevant to the property in the report. By excluding unnecessary information, we hope that you find the report easier to understand
- The distance we search from your property follows independent expert guidance
- Guidance and next steps are written in plain English
- Access to expert consultants for any follow up queries, contact details provided

Designed for:

- Residential and commercial property

Use this report to understand:

- the potential effects of key energy and infrastructure projects to your property and what next steps you can take to better understand any risks.

Datasets include:

- High Speed 2 data - track and station details, safeguarding and compensation scheme zones
- Areas licensed by DECC for on-shore energy exploration and production
- The location of wind farms and wind turbines
- Crossrail - track and station location (phase 1 & 2) and safeguarding.
- The location of solar farms
- The location of other renewable power plants
- Above and below ground railways

Why you need it:

The Energy & Infrastructure report has been designed to complement existing planning reports by alerting users to the presence of key energy and infrastructure projects.

£10m Professional Indemnity Cover of £10million*

Data includes:

- **High Speed 2**
This report indicates if a site is likely to be impacted by the proposed new high speed rail network, whether it be a commercial or residential property located along its corridor
- **Energy Exploration – including “Fracking”**
DECC (the Department of Energy and Climate Change) has identified areas of land (licensed blocks) and drilling locations which could be earmarked for energy exploration and exploitation in the future
- **Solar Farms, Wind Farms and Wind Turbines**
This report will clearly indicate whether the property is near to any operational, proposed or planned solar farms, wind farms and wind turbines
- **Renewable Power Plants**
The report indicates the location of any planning applications associated with various types of renewable power plants

- **Crossrail**
The Government announced in October 2007 the go-ahead for the Crossrail project as a rail link from Reading and Heathrow to Shenfield and Abbey Wood, with a tunnel section running under central London. Development of Crossrail has commenced with services due to begin on the new line in 2018
- **Crossrail 2**
- **Above and below ground railways**

Additional services

- Follow on consultancy services
- Insurance products and expertise

Wide reliance

Automatic reliance by most parties involved in a property transaction including seller, buyer, lender and their professional advisors.

These other reports may be relevant to your site:
